

ScanShell 800D

ScanShell 800D is a fast duplex scanner which is able to perform a color scan of both sides of the personal document in just 5 seconds.

ScanShell 800D is made to scan drivers licenses, ID cards, credit cards, various membership cards, checks, etc.

ScanShell 800D works with a standard USB 2.0 port and does not require an external power adapter. It can scan all documents which are a maximum 106 mm wide and 1.5 mm thick. TWAIN and WIA compatible scanners have a maximal resolution of 600 DPI.

Because of its size and speed, ScanShell 800D scanner represents an ideal solution for scanning at all front desk offices that need to scan all types of cards.

Dimensions:

Height:	40 mm
Width:	190 mm
Length:	80 mm
Weight:	300 g

Specifications:

Type:	A6 format pass through duplex scanner
Interface:	USB 2.0 (Universal Serial Bus)
Image sensor:	Dual, linear color CMOS CIS (Contact Image Sensor)
Paper sensor:	Electro - mechanical sensor
Max. resolution:	600 x 1200 DPI
Scanning modes	24bit color, 8bit gray, 1bit black and white
Scanning area:	A6 (106 x 184 mm)
Scan speed (ID Card):	3 seconds in grayscale mode, 5 seconds in color scan
Paper tickness:	0.1 mm - 1.5 mm
Power consumption:	0.2W in standby mode, 2.0W while scanning
Power source:	USB
Cable length:	150 cm
Regulatory standards:	FCC class B, CE, USB-IF.org / WEEE, RoHS
Supported operating systems:	Windows 7, Windows 8, Windows 10
