

# Fujitsu FI-65f

**Fujitsu FI-65f** scanner accelerates business where it is most needed.

The ultra compact scanner can scan documents such as passports, ID cards, visas or any other documents up to A6 format.

The scanner is connected to the computer via USB 2.0 port, with an external power supply. Documents at sizes up to 105 x 148 mm can be scanned in color (24-bit), grayscale (8-bit) and black & white (1-bit).

**Due to its small size and high-speed scanning, Fujitsu FI-65f is an ideal solution for scanning large quantities of documents at receptions and other front desk businesses.**

## Dimensions:

Height:	40 mm
Width:	145 mm
Length:	234 mm
Weight:	900 g

## Specifications:
